

Auld/Friesen Competitions Participants

Competition	Student's name	Affiliation	Abstract Title
Friesen	Jennifer Morrison and Shariq Akhlaq	University of Alberta	A Discussion on the Integration of Work Experience into Chemical Engineering Education
Friesen	Eric Arsenault	McGill University	Nanochemical Engineers to the Rescue!
Auld	Devin Bear	University of Saskatchewan	High-Conversion of Lignocellulosic Sugars to Ethanol
Auld	Ankeeta Tadkase	University of Toronto	Development of Composite Hydrogels as an Injectable Drug Delivery Platform
Auld	Jennifer Kwong	University of Calgary	Wimborne Coalbed Methane: Production Optimization Business Plan
Auld	Jennifer Morrison	University of Alberta	Reversible and Irreversible Phase Transitions in Athabasca Bitumen Asphaltenes
Auld	Leila Aksiman, Stela Railean, Emma Tirard and Hajer Farhal	Ecole Polytechnique	Gold Production From a Refractory Ore by a Cyanidation Process (French presentation)
Auld	Andrea Viguera	University of Saskatchewan	Algal Capture of Carbon Dioxide
Auld	Supraja Sidharan	University of Toronto	Variable-Angle Transmission FT-IR Spectroscopy of Petide-Membrane Interactions
