

Travel subsidies are available to Canadian CSChE Undergraduate Student Members attending the 8th World Congress of Chemical Engineering (WCCE8). The subsidy is up to a maximum \$.03/km per student one way as the crow flies (a straight line drawn between Montreal and the university attended). Students must be attending a Canadian university more than 100 km from the conference site to be eligible. The chart below shows the maximum amount that each student may receive. The final amount will depend upon the total number of students attending the congress and the distance each student traveled.

*In order to receive the travel subsidy, you must register as an undergraduate student for WCCE8 prior to the **April 29** early registration deadline; be an undergraduate student member of the CSChE; and be an undergraduate student in a chemical engineering program at a Canadian University.
